FEVER SITUATION MORE FAVORABLE

Fewer New Cases Than Usual Reported at Hospital.

TWO POLICEMEN FALL VICTIMS

The Few Deaths in Proportion to New Cases Has Caused the Authorotiies to Become More Hopeful in Their Work.

New cases in New Orleans since 6 p. m. Thursday—14.
Total to date—1,237.
Deaths today—1.
Total deaths—181.

New Orleans, August 19.—Fewer reports of new cases than usual reached the marine hospital offices early today, and with only a single fatality occurring during the night, there was hope expressed that today's record would be a favorable one.

While the low death rate is gratifying, there is considerable public anxiety to see a dimunition of the number of new cases which will indicate more surely the control of the authorities have of the situation.

Malaria continues to be mixed with the yellow fever list that is reported daily. Dr. J. M. Lindsley has returned to New Orleans, after undergoing an experience at Ship Island. The doctor came here early in the campaign and then tried to go into Mississippi, but fell foul of the quarantine guards and was ordered Jeported to the island for the usual period of ten days.

Chief Surgeon White and Dr. Jansler, of the citizen's committee, today made a tour of the city in an automobile. Dr. White continues to express his satisfaction with the situation.

Two policemen are among the latest victims of the fever.

Analysis of the report for the preceding twenty-four hours shows that 3 of the 74 new cases of yellow fever appeared in the heart of the originally infected quarter.

The explanation given by the inspectors is that after their own houses are disinfected and the mosquitoes killed, some of the Italians go around and pay visits to sick friends and become infected themselves and carry the fever home with them.

The situation above Canal street continues to improve. In that section obedience to the federal regulations is more general and the results are plain. While the report showed five new cases only three new squares are infected.

The unexpected decline in the death rate is giving such a feeling of satisfaction here that people are beginning to believe that the possibilities of the visitation have been overdrawn. The doctors, however, say that the low death rate is due to the fact that practically the whole community has been educated up to the necessity of calling a doctor the moment temperature developes, in consequence of which most cases are taken hold of in their incipiency and are soon on the road to convalescence.

One of the results of the campaign is likely to be an insistent demand hereafter that all doctors and all citizens shall pledge themselves to make known the appearance of the first suspicious case. So successful have the authorities been in stamping out the upper section of the city that the belief is general that if the first cases here had been promptly reported, they could have been handled the infection stamped out and New Orleans spared a quarantine during the duration.

Fifty-Five Cases at Patterson.

Bon Ami and the Ardoyne plantation in Terre Bonne parish are practically free of fever now, but a close watch is to be kept for secondary infection. At Patterson, while the total cases have reached 55, the death rate has been insignificant that the early alarm has passed. Alexandria has still only one case, but desires an expert to be sent thither in order that the entire town may be examined for suspicious fever.

There is considerable interest here in the proposed house to house inspection at Gulfport because Gulfport has been doing a large maritime trade and there has always been some apprehension here that fever might slip into that city. The board of health at Lake Charles finds itself helpless to make headway against the state of public opinion in the town. The health authorities desire to put on a sane quarantine, but the municipal officials and the citizens generally have ranged themselves on the other side, and all efforts to open the doors to freight from New Orleans have been unsuccessful thus far.

President Souchon has asked the railroads to run small trains to infected points in order to furnish supplies to the people. Dr. White has indorsed the recommendation, both as a means of relief to people in stricken communities and as a sanitary measure of the highest importance.

Camps Ordered to Move.

Zachry, La., has ordered the Mississippi Valley to remove all its camps in the vicinity of that town. The action is based on reports that Italians are joining the camps and may infect the locality.

In order to force general compliance with the mosquito ordinance Inspector Whitaker has notified his officers to put violators in cells where they have been given due notice to screen their cisterns and have failed to do so. Under the law the inspector is vested with large powers and it is believed that this order will have a widespread effect. A number of citizens in comfortable circumstances have already been lodged in jail under the order.

Wood for Street Paving.

Washington, August 19.—The forest service of the department of agriculture has announced that it has taken up the study of woods for special use and experiments will be conducted particularly to secure a wood for street paving which will prove lasting. The circular states that in recent years engineers have become convinced that with the right selection and treatment of material and with the right method of laying, wood paving can be made successful. Consequently a revival in wood paving has been begun and many of the largest cities are again trying it.

ENVOYS DISCUSS ARTICLE ELEVEN

Little Work Accomplished by Peace Conference.

MAIN QUESTIONS HANG FIRE

The "Prophets of Evil" Predict that the Meetings Will Soon Cease and No Peace Treaty Will Be Concluded—Adjourns Until Monday.

Portsmouth, August 19.—When the peace plenipotentiaries met today it was with the tacit understanding that at the end of today's session they would adjourn until Monday.

The "prophets of evil" as those who persist in believing that all hope of a treaty is gone are called, predicted that today would witness the final rupture and that at most there will be only one meeting, not for a final effort to reach an accord, but to exchange the diplomatic amenities and bid each other farewell. This does not correctly represent the situation. Unless something entirely unforeseen on either side occurs today the final struggle will be postponed until Monday to give both sides time to hear the last words of their governments.

No matter what the written "full powers" of plenipotentiaries extraordinary may be, these modern days of the cable and the telegraph which keep envoys in instant communication with their home government, has made more or less of a fiction of the "full powers," which, in the olden days, were given to envoys charged by their governments with negotiating and settling international issues.

Diplomatic negotiations are now conducted by Emperor Nicholas government than by emissaries. Envoys propose and emperors dispose. Both sets of plenipotentiaries here are in continuous communication with their governments. Accounts of each day's proceedings are cabled nightly to Tokio and St. Petersburg, and messages are constantly arriving from both capitals.

The reports found Japanese much longer and more complete than is the Russians, secretaries of both delegations work night and day preparing and deciphering messages.

Just before M. Witte left for the conference chamber this morning he received a long cipher cablegram. Perhaps it contained the answer to the important communication sent after last night's conference. It was too late to decipher it at the hotel and M. Witte thrust it into his portfolio and took it with him to the navy yard, where his secrtaries could translate it.

Article 11 (the limitation upon Russia's naval power in the Far East) was pending when the plenipotentiaries reassembled. The indications are that it will also go over without final action. That as well as article No. 12, relating to fishing rights on the Russian littoral, may be yielded by the Russians, but neither 10 (the interned warships) nor 11 or 12 presented insuperable difficulties. Everything now harks back to indemnity and Sakhalin. There, as from the first, will be the crux. If this can be adjusted, the remainder will be child's play.

It is difficult to fathom the Japan mind, but as stated in the Associated Press dispatch last night, there have been vague moves in the conference chamber which indicate that they are willing to consider the disputed points together "en bloc" and this is the basis of the main hope that they are ready to compromise.

The morning session of the peace conference ended at 12:30 p. m.

The envoys repaired to the lunch room immediately.

The official statement was issued as follows:

The morning session. The sitting of the session of the morning Aug. 18, continued the discussion of article 11 and the decision has not been finished. The discussion of the article will be resumed at 3 o'clock.

One Hundred Lives Lost.

Sydney, New South Wales, August 19.—Confirmation of the report that the Marshall Islands were visited by a hurricane and tidal wave on June 20 has been received here. One hundred lives were lost.

Cannot Discuss Boycott.

Hong Kong, August 19.—The application of the Chinese communion in this city to meet and discuss the anti-American boycott, has been refused by Sir Matthew Nathan, governor of the colony.

THREE NEGROES PAY THE DEATH PENALTY

All of Them Were Guilty of Murdering Women.

MEMPHIS HAS TRIPLE HANGING

The Crimes of the Men Had No Connection With Each Other—General Bone's Crime Was One of the Most Revolting in Criminal History.

Memphis, August 19.—Three negro murderers were hanged this afternoon by Sheriff Montgomery and deputies.

The crimes of these men had no connection with each other. The most brutal was that for which Henry Bone, a huge limbed negro, paid the death penalty. His murder of Mary Maben, the wife of another negro, was one of the most revolting crimes ever committed in Shelby county. He entered a cabin early on the morning of Jan. 1, last, killed the woman, then carried her body to Wolf river, where he tried to hide evidences of his crime by sinking the body in the river. He was arrested and at first pleaded guilty, but upon advice of his counsel changed the plea to not guilty. He was convicted after a short trial.

James Norfleet was executed for the murder of his wife on a train near Appleville, on the morning of December 1904. The body of the woman was found in a cabin full of bullet holes. Norfleet was brought to trial and convicted on strong circumstantial evidence.

On Dec. 17, 1904, John Champion committed the crime for which he paid the death penalty. He murdered his paramour, Irene Jones, in a resort in this city. The woman had left Champion. He followed her to the house and without warning shot her dead. He also shot another negress who recovered. Champion escaped from jail for a time, but was captured in Paducah, Ky., last January, and was convicted three weeks later.

Offered $25,000 for Wife's Death.

London, August 19.—A great sensation has been created by the action of Hugh Watt, a financier and formerly a member of parliament for the Partlachie division of Glasgow, in charge of attempting to procure a private detective to assist in the murder of his former wife. Detective Marshall testified in a police court that Watt offered him $25,000 if he would induce the woman to go to Watt's flat, where he proposed to poison her by the administration of chloroform, and then to remove the effects of the chloroform with peppermint. Watt was remanded for trial on bail of $3,000. The police found chloroform and peppermint in Watt's apartments.

Ready to Observe Eclipse

New York, August 19.—Professor Turner, of the British eclipse expedition to Assouan, telegraphs that preparations are well advanced. A Herald dispatch from Assouan, Egypt. The American, British and Russian parties are now on the ground. The Egyptian government's assistance will be given and the antiquities department will allow the use of ruins for delicate magnetic observations.

Killed Daughter and Himself.

Pueblo, Colo., August 19.—Thomas Foster, foreman of the yards of the Pueblo Steel Works, has killed the death of his daughter, Ethel, aged 16, by forcing her to swallow a quantity of poison, and then committed suicide by using the same drug. Neighbors said Ward had been drinking heavily and had threatened to kill himself and the girl. Ward is still at large.

Engineer Killed in Wreck.

Houston, Tex., August 19.—Passenger train No. 1, on the Houston, East and West Texas railroad, between Shreveport, was derailed between Goodrich and Livingston, Tex. Engineer Edgar Colne was killed and Fireman Ely injured. Several passengers are reported slightly injured.

FAIR ASSOCIATION DOWN TO BUSINESS

Every Member of the Association Working for the County.

WILL HAVE A FINE EXHIBIT

Fair Commissioners Are Already at Work and Determined to Show the World What Alachua County is Capable of Producing.

The Alachua County Fair Association, which was organized a few days ago as an adjunct to the Florida Mid-Winter State Fair Association, is now making excellent progress, with the indication that Alachua county will have at the State Fair, which is to be held in Tampa from November 15th to 30th, an exhibit which will be second to none and which may capture the big $2,000 prize for the best general county exhibit. There will be six prizes for county exhibits, ranging from $2,000 down to $100, but Alachua county is after the first prize and is determined to capture it if hard work and a good display will get it.

Mention of the organization of the Alachua County Association has already been made. At this meeting a great deal of enthusiasm was manifested by the numerous business and professional men present and a full complement of officers were elected which will insure the success of the undertaking. The meeting was characterized for its enthusiasm and those present made assurances that the farmer and trucker would lend every aid towards making the association and the exhibit a success. It is from the farmer and trucker and horticulturist largely that the county must depend, although there will be exhibits of the mining and manufacturing interests of the county. Taken altogether, no county in Florida, or in the South, can produce a more diversified or better variety, and Alachua county will show up well at the Fair.

The board of directors of the Alachua County Fair Association, which was selected at the meeting of the association upon its organization, convened in the office of Secretary W. W. Colson and appointed the Fair commissioners, who were notified, and many of them have already written of their interest in the matter and have gone to work. These commissioners, all of whom are gentlemen of influence in their respective communities, are determined not to be outdone, with the result that the Alachua county exhibit at the Fair will come first, not only from an alphabetical standpoint, but in point of merit.

Major Tench's Letter.

Major J. W. Tench, who has been appointed by the board of directors as collector and manager of the exhibits, has addressed an interesting circular letter to the people of Alachua county, which is as follows:

"To the Progressive Citizens of Alachua County:

"Having been appointed by the directors of the Alachua County Fair Association as collector and manager of the county exhibit at the Florida Mid-Winter Exposition, to be held at Tampa beginning on the 15th of November and ending on the 30th of November, 1905, I take this method, for the present, of calling your attention to the many advantages to be derived from these annual fairs, alike to the State, counties and individuals thereof. Later, in ten days, perhaps, I will try and see every farmer and housewife in the county personally, and talk the matter over in extenso.

"The directors, commissioners and officers of the Alachua County Fair Association are all men of affairs and have the confidence of the entire citizenship of the county, and it is their intention to bring back the $2,000 premium offered for the best county exhibit; and if the commissioners will aid me as I hope they will, by using their unceasing efforts to induce the people to send the best of everything produced on the farms or wrought by the nimble hands of the household, we will succeed. I cannot tell on this sheet all that is wanted for exhibition, but will send or bring you printed list within the next two weeks. Suffice it to say here that nothing should be overlooked. What would not perhaps interest the sender very much, would be very interesting to many visitors to the Exposition. Don't go to the Fair and say I could have sent better specimens of this or that—but send what you have, and if it is superior to others, then so much the better for you, the county and the State.

"Remember that everything is wanted, from a book of pressed flowers and leaves, to the finest horse, cow or hog—from pop-corn to bales of cotton, from a doylie to a bed-spread, from ginger bread to angel cake.

"Respectfully,
"JOHN W. TENCH,
"Collector and Manager."

Major Tench has already received several replies promising every support, and it is reasonable to believe that old Alachua will be there "with the goods" when the time arrives.

Country People Interested.

A number of the most prominent planters, and fruit and truck growers, in the county are becoming interested in the State Fair, and many of them promise to exercise an extra effort to raise something nice for the occasion. As Major Tench says in his circular, anything from a peanut to a thoroughbred horse is acceptable, so long as it is good.

NEWS OF CITY AND COUNTY CONDENSED

Sump. L. Blanton of Wade, one of the most widely known residents of that section, was a visitor to this city yesterday. He made The Sun an appreciated call.

S. L. Miller of Charleston, the clever representative of Pringle Bros., dry goods and notions, is in the city for a few days. Mr. Miller is well pleased with Gainesville and declares he will make Gainesville his headquarters for this section of Florida in future.

The pay train of the Atlantic Coast Line passed through the city on its regular monthly mission yesterday, making many souls happy. There are a number of employes here, and the presence of the "sugar bag" makes things lively in some circles for a while.

Mrs Charles E. Ward of Shubuta, Miss., who has been the guest of her daughter, Mrs. J. M. Goodwin, leaves for her home today, accompanied by the latter, who has been here a few weeks with her husband, who has charge of the long distance telephone construction to this city.

Mrs. C. C. Pedrick and children have returned from Waeahoota, their old home, where they went to attend a reunion of the J. Porter Smith family. All the children of the family and descendants were present, and a big dinner was spread under the oaks. In addition to the family there were a large number of relatives and friends, and the day was spent in a most enjoyable manner.

Friends of Col. and Mrs. W. W. Hampton will be pleased to learn that they have reached their Northern destination, Port Carling, Ontario, in safety, and are now enjoying themselves in that exhilarating atmosphere. In a letter to a friend here Col. Hampton states that the temperature is fine, and that he never felt better in his life. He also directs that The Sun be sent to his address.

The six-room residence on the Plaza lot, South University street, which is being erected by Mrs. Stewart, is about completed, and the painters are now putting on the finishing touches. This will be one of the most conveniently arranged homes in the city, and will no doubt rent readily at a fair price. Mrs. Stewart expects to erect two more cottages on the Plaza lot within the next few weeks.

Some rare bargains are to be had at this office in second-hand typewriters: Remington No. 6, practically new; Remington No. 7; Barlock No. 10; Smith Premier No. 2; Caligraph No. 3, and Fay-Scales No. 6. These machines will be sold cheap and on very reasonable terms. First applicants get the best bargains. dawtf.

Sam Davis, who was seriously injured by knife wounds at High Springs a few days ago, is out again, and will be enabled to resume his duties in a short time. Davis became involved in a row with Tom Mixson at High Springs, when Mixson severely cut him, and up to a day or two ago was held in jail. It is said that he was arraigned before the mayor of High Springs and given a sentence of fifty days on the streets.

Registration Notice.—Notice is hereby given that the registration books of the City of Gainesville are now open at my office in the United States land office, where all persons qualified to register, including residents of the new territory added to the corporate limits of the city by the new charter enacted by the last Legislature, may register between the hours of 8 and 12 a. m. and 1 and 4 p. m. Books close on Saturday, September 9th, 1905. J. M. DELL, City Clerk.

BOULWARE SPRING IS FREELY FLOWING

Wonderful Discovery by Alderman Benson Thoroughly Tested.

ABUNDANCE OF PURE WATER

Alderman Benson Knew That Water Was Available and After Eighteen Years of Argument Demonstrates the Fact—A Fine Flow Obtainable.

A number of gentlemen interested in the city's water supply and in the improvement of the water plant went to Boulware spring Friday and Saturday to witness some experiments made by Alderman Benson along this line.

Mr. Benson has bored several shafts through the hill at a point some 12 or 14 feet above the present outlet of the water, and to prove that he had found the true current from which we now obtain our supply, he had his workmen to send down a drill, the churning of which caused muddy water to run from the mouth or outlet of the subterranean channel, then set the force pump, having a three-inch discharge, to work. This pump, having a capacity of 275 gallons a minute, 16,500 an hour and 396,000 gallons in twenty-four hours, running to its full capacity, failed to lower in the least the usual flow into the reservoir, and therefore did not lower the stream, basin or source of supply. At noon Friday the mercury registered 88 degrees. The same thermometer kept in water as it ran from the city mains fell to 80 degrees. The water taken from the discharge of the experimental pump is 70 degrees, and with a larger pipe laid in a straight line—thus avoiding friction and the constant wearing of machinery and extra cost for fuel, and the piping placed at least five feet below the surface, avoiding the heat of the sun, and connecting with the large pipe at the large reservoir in East Gainesville, our people would have an abundance of water for all purposes, the temperature of which would not call for ice, that fruitful source of indigestion and concomitant evils. Then, too, we would not be annoyed by rapid-growing water mosses, such as infest and befoul the average reservoir, as these do not grow in water shut out from light and heat.

The experiments of Mr. Benson as exhibited would have convinced any practical mind that he has solved the problem of cool water, water free from vegetable matter of any kind, and water in inexhaustible quantity.

Mr. Benson deserves a great deal of credit for his energy in this matter, which he declares he has been "hammering" away at in his various terms as alderman of the city of Gainesville for the past eighteen years. Notwithstanding that some of the brainiest men in the city have composed the council during this long term, few of them have manifested sufficient confidence in Alderman Benson's theory to risk an experiment, hence Mr. Benson was what might be termed alone in his fight for more and better water. He finally induced three of his colleagues of the present council to vote for an sufficient appropriation to bear the expense of an experiment, with the result that his theory has proved entirely correct, and the people of Gainesville now have an inexhaustible supply of pure water, which is worth hundreds of thousands of dollars to the city, especially since a system of sewerage will likely be installed within the next year.

The question of water has been a perplexing one to the people of Gainesville for many years. While the product of Boulware spring has always stood by analysis to be second to none in the South, and inferior only to the famous Poland springs' water of Maine, there has been in the dry times a alarming scarcity, but this scarcity may now be avoided, and the city will be supplied with as pure water as can be found in the world.

As a faithful assistant Alderman Benson had Harry D. Lewis, a well driller contractor of North Gainesville. Mr. Lewis is thoroughly efficient in his work and the general formation of the earth and flow of the spring assured him that there was an abundance of water. Mr. Benson received many valuable pointers from Mr. Lewis in the work, and he deserves also a great deal of credit for bringing the experiment to a successful termination.

Attention, Odd Fellows.

The regular weekly meeting of Center Lodge No. 11, I. O. O. F., will be held at the lodge room over Dutton's bank Monday evening. There will be work in the First degree. A full attendance is desired, and visiting brothers will be gladly welcomed.

CONTAGIOUS BLOOD POISON

Contagious Blood Poison more thoroughly poisons the blood than any other disease. Every part of the body is affected when the virus becomes intrenched in the circulation; red eruptions break out on the skin, the mouth and throat ulcerate, glands in the neck and groins swell, the hair falls out, copper-colored splotches appear on the body, etc.

I was afflicted with blood poison, and the best doctors did me no good, though I took their treatment faithfully. In fact I seemed to get worse all the while. I took almost every so-called blood remedy, but they did not seem to reach the disease, and had no effect whatever. I was disheartened, for it seemed that I would never be cured. At the advice of a friend I then took S. S. S. and began to improve. I continued the medicine, and it cured me completely.
Hamlet, N. C. W. R. NEWMAN.

So highly contagious is this disease that many a life has been ruined by a friendly hand shake or from using the toilet articles of one affected with the poison. To cure this hideous and hateful disease a constitutional remedy is required. S. S. S. goes down to the very root of the trouble and forces out every particle of the virus from the blood and cures the disease permanently. S. S. S. is purely vegetable and drives out the trouble, root and branch, and no signs of it are ever seen again. Those who have been cured by S. S. S. can feel assured that none of the poison is left in the blood to transmit to innocent offspring. The entire body is built up and the blood made pure, rich and healthy by this great remedy. Book with instructions for home treatment and any medical advice desired will be given free of charge.

Meeting of the Junior League at 3 p. m., and Senior League at 4 p. m. Union service in the evening, at which time the pulpit will be filled by Rev. S. B. Rogers of the Baptist church.

First Baptist Church, Rev. S. B. Rogers—Sunday school at 9:30 a. m., preaching at 10:30 a. m.; Gleaners at 2 p. m., and Sunbeams at 3 p. m. Union service in the evening at the Methodist church, to which the congregation is invited.

First Presbyterian Church, Rev. T. P. Hay—Owing to the absence of the pastor, who is spending the vacation with his family in North Carolina, the morning service will be conducted by Ruling Elder L. W. Buchholtz. There will be Sabbath school at 4 o'clock, but no evening service, on account of the union service at the Methodist church, to which the congregation of this church is invited.

The usual services will be held at Holy Trinity Episcopal and St. Patrick's Catholic churches.

Elder J. T. Butler of Live Oak will preach at the Advent Christian Church this morning at 10:30 and this evening at 7:45 o'clock. Sunday school will be held at the usual hour.

A Touching Story

Is the saving from death of the baby girl of Geo. A. Eyler, Cumberland, Md. He writes: "At the age of 11 months, our little girl was in declining health, with serious throat trouble, and two physicians gave her up. We were almost in despair, when we resolved to try Dr. King's New Discovery for consumption, coughs and colds. The first bottle gave relief; after taking four bottles she was cured, and is now in perfect health." Never fails to relieve and cure a cough or cold. At all drug stores; 50c and $1; guaranteed. Trial bottle free.

OVER A HUNDRED THOUSAND VOTES

Is Kirby Smith Chapter's Total Vote Polled to Date.

A GAIN OF 11,291 FOR THE WEEK

The Odd Fellows Add 8,808 to Their Total—The Contest Between These Two Organizations—Earnest Workers Fall Behind.

The voting for the past week has been between Kirby Smith Chapter and the Odd Fellows' Home, and the Chapter has come out ahead. Last week the Odd Fellows made the largest gain of any, but this week Kirby Smith gained 11,291 and the Odd Fellows 8,808. There are four voting places that have not sent in their returns for the past week, which might make a slight change one way or the other. The Sun has urged these people to get their votes counted each Friday night, so that they could be returned Saturday morning. We cannot take the time to call on each place every week for their votes. They must be sent to the office.

The following is the result as received up to Saturday evening, which shows a total vote for the week of 22,523. It is reported, however, that 10,000 of the votes received by the Odd Fellows during the week ending August 5th were cast on a real estate deal, and if such be the case this number should be eliminated from their grand total, which would place Kirby Smith Chapter 4,203 votes ahead of the Home.

Kirby Smith Chapter	101,412
Odd Fellows' Home	71,179
Earnest Workers	37,323
Union Academy	6,846
High School	5,431
Knights of Pythias	2,586
Masons	1,447
Elks	1,144

THE YELLOW FEVER.

There Are Thirty New Cases on Yesterday's Report.

New Orleans, Aug. 19.—There were 30 new cases and four deaths up to noon today. Reports from the outlying districts show that the disease is slowly but surely extending its limits. Most of the cases are said to be mild.

Dr. Leach of Minneapolis, who came here and introduced arsenic tablets to prevent yellow fever, has caused quite a commotion. The hospital officials claim he has caused much trouble.

Fever Notes.

A well developed case is reported at Starkville, Miss.

State Health Officer Sanders of Alabama will maintain a strict quarantine.

A number of New Orleans Italians were in Pittsburg Thursday and left for New York. The houses where they stopped were fumigated.

Public is Aroused

The public is aroused to a knowledge of the curative merits of that great medicinal tonic, Electric Bitters, for sick stomach, liver and kidneys. Mary H. Walters of 546 St. Clair Ave., Columbus, O., writes: "For several months I was given up to die. I had fever and ague, my nerves were wrecked; I could not sleep, and my stomach was so weak from useless doctors' drugs, that I could not eat. Soon after beginning to take Electric Bitters, I obtained relief, and in a short time I was entirely cured." Guaranteed at all drug stores; price 50c.

Miss Tebeau's Boarding School.

The announcement of the opening of the 31st session of Miss Tebeau's Boarding and Day school appears in another column of this paper, and the mere announcement is all that is necessary for the people of this portion of the State, as this carefully conducted institution of learning has such a popular hold on those who would have their children thoroughly trained in ethical manner, that they feel at ease when the opportunities afforded are improved. September 18th is the day set for the opening, and there is every prospect of a generous bestowal of patronage by the people of this and surrounding cities.

Brief Happenings From Various Sections of State.

THE MOST IMPORTANT EVENTS

Transpiring in "The Land of Flowers." Things "Boiled Down" to Suit the Busy Reader—Items of Interest to All Classes.

C. G. Cantrell has been elected principal of the Williston public school.

John Capo, an old resident of St. Augustine, died Thursday night, aged 80 years.

Bryan & Co. of Jacksonville will lay about 30,000 feet of pipe for sewer branches at Palatka.

DeSoto county is also into the wool growing business, and a recent "clip" was sold there for $3.000.

The public schools at Titusville, Cocoa and Eau Gallie will open for the next term on September 11th.

The Fort Pierce Improvement Society will erect a town hall and club room on a lot donated by the city.

Patrick Henry has again come to public notice at Belleview, Marion county, where he assaulted Mr. Ellison.

The sandstone brick that are now being made in different portions of the State are said to equal the clay brick in durability.

The Manatee Record says that the rain of Thursday morning broke the record for many years past. Other places have also announced a new record.

Jack S. Land is in jail at Starke, awaiting trial on a charge of assault with intent to murder. He will make his debut at the fall term of Bradford county court.

The Escambia Rifles have been revived at Pensacola with James R. Landrum as captain. The Rifles is the oldest company in the State, or was, before it was disbanded.

Two men from Oneco hunted for work in Manatee and Bradentown for one week without finding any. Then they came to Sarasota and in half an hour both were at work.—Sarasota Times.

Henry J. Sandlin and Miss Lucille Greene, both of Jasper, after a long drive to obtain a marriage license, were supplied with the necessary document at Madison, and Rev. T. C. Bradford united the happy pair.

Someone turned a faucet of the pipe line at the Manatee Light and Traction Company and let about 500 barrels, or less, of oil run into the river one night last week. It has been smooth sailing on the river ever since.

The champion tarpon of the season was captured last Monday by Messrs. Louis and Frank Depew near Tucker's cove. It tipped the scales at 123 pounds and furnished all the sport the fishermen were looking for.—St. Lucie Tribune.

Gainesville is feeling like a young giant in the exercise of his strength. She recently offered to let the Board of Control have $100,000 to be used for the erection of school buildings. Carnegie with all his libraries is not feeling any better than our sister city.—Ocala Banner.

Miami has a baseball team and the boys thought they could scrap anything on the East Coast. They got as far as West Palm Beach, where they were combed to a finish in the first game, the score being three to one. The Beach boys were loaded for the visitors and knew they could do the trick from the start.

White Springs is becoming famous as a resort, and the arrivals each week are from all sections of the country. But this week there has been a larger and more noted number than usual, and one evening, while St. Peter was asleep, a little one came through the heavenly gates and is now blessing the home of Editor Smith of The Herald.

MOZLEY'S LEMON ELIXIR

REGULATES THE LIVER, STOMACH, BOWELS, KIDNEYS.

The inventor of the famous "TERRELL SCRAPE," a man known wherever plows are sold and used, says:

"I have used MOZLEY'S LEMON ELIXIR for 10 or 12 years in my family for the stomach, liver and kidneys, and find it is the best medicine I have ever used. It is also a sure specific for pain in the back or under the shoulders. I have recommended it in numerous cases to my workmen, when sick and unable to work, and it has always given perfect satisfaction. H. D. TERRELL, President Atlanta Plow Co., Atlanta."

TEACHERS ENTERTAINED.

A Delightful Evening With the W. C. T. U. at the Dormitory.

There was a very jolly and large attendance at the reception held in the girls' dormitory on Friday night by the ladies of the W. C. T. U. in honor of the teachers in attendance at the State Normal School, and of the large number taking the course nearly all enjoyed this social event. The rooms were tastefully decorated with plants and cut flowers, and across the arch that separates the parlors was the motto of the Union: "For God and Home and Native Land."

Owing to the rain the people were late in arriving, but when the Rev. T. J. Nixon called to order the rooms were comfortably filled with faculty, teachers and friends, and the sweet strains of music by the Mandolin Club could hardly quiet the hum of voices. After another very pleasing number by the Club, a vocal solo, "A Mother's Prayer," was rendered by Prof. J. E. Smith, which was a very touching selection. Miss Mary Baird followed with a recitation, "Courage With Wine," in which she proved herself a very entertaining and painstaking reader. She received many compliments from her admiring friends.

After a selection by the Mandolin Club, Miss Longmire gave a humorous reading relating the trials of an "Inventor's Wife." Her selection captured the entire audience and she was heartily encored.

Prof. J. E. Smith, in his rendering of "The Pensive Old Piano," made a decided hit, and those who have listened to the progress of the "new beginner" as she begins with one-and-two-and, etc., until she reaches the "Java March," would appreciate the effort.

Prof. Tom McBeath was next on the program with a paper on "Temperance," in which he gave his views in a clear and concise manner. He told the teachers of the work that had been turned over to them in recent years through the efforts of the mothers to manage the affairs of State instead of inculcating morals into the minds of their children at home. His paper was well prepared and gave his views on the temperance question in a very emphatic manner, although they were in conflict with what has been often said by others on the subject.

Miss Mary Cushman, one of the teachers at the Normal, in her recitation of "The Vagabond," displayed well developed talent in that line, her rendering demonstrating much dramatic fire and good conception of the character portrayed. She responded to an encore.

Another solo by Prof. Smith, "Only a Drunkard," was received with appreciation, the last number on the program being a recitation by Miss Julia Wainwright, entitled "Poor Farm Nan." She gave the selection with much spirit and with credit to herself.

At the conclusion of the exercises the large company partook of the "fruice" served by the young ladies in the next room, and in this part of the program the Misses Myra McMillan, Janie Taylor, Mary and Nellie DaCosta won the favor of the entire audience.

The promoters are to be congratulated on their success in furnishing so pleasant an evening's entertainment, and for their efforts to make all feel at their ease and enjoy a social time.

A SUCCESSFUL HUNT.

Party of Sportsmen Killed Many Birds But Fine Dog Dropped Dead.

Dr. G. B. Tison, W R McKinstry, B. M. Tench and J. M. Dell killed 225 doves Friday, the score being so evenly divided, no one had any "kick" coming. The part of the day when the party could have had their best shooting it rained, and consequently the score was very much smaller than it would otherwise have been. The only thing except the rain which marred the pleasure of the party was the fact that Will McKinstry's favorite dog, "Bettie," fell dead, causing the party to feel that the loss over-balanced four times the pleasure, game, etc. It is best not to name the cause of the dog's death, but refer you with a heart full of sympathy to Willie, who, if not too full for utterance, will explain.

THE PEOPLE ALL

In Chorus Cried, Give Us Newbro's Herpicide.

This word of late has been in everyone's mouth, and many are wondering what the word signifies, though no one has yet been found, who will deny that NEWBRO'S HERPICIDE does the work. Well, for the information of thousands of people who like to know all about a good thing, we would say that HERPICIDE means, a destroyer or killer of "Herpes." Now "Herpes" is the family name of a disease caused by various vegetable parasites. A similar microbe causes dandruff, itching scalp, and falling hair; this is the microbe that NEWBRO'S HERPICIDE promptly destroys; after which the hair grows. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

The mosquito may do the work, but it is hard to make the people believe it.

The River Nile is very low, and the people have no desire to see it get out of its bed.

Because John D. Rockefeller has lots of money he has to put up a big bunch to get absolution.

The Emperor of Austria celebrated his 75th birthday Friday. He has the universal love of his people.

There may yet be something doing in the Georgia Legislature. Both houses are not a unit on reform.

The mosquito at the present time is a bigger chap than she looks to be, but a great many people find it hard to believe that she is "it."

We hope that the mosquito that was the cause of the yellow fever outbreak may be captured and made an example of as a warning to others.

If the grafters would only drop out through the leaks in the departments at Washington the people would be willing to let them remain open.

Those people who have been worrying about the danger of a surplus tempting the fellows at Washington need not lose any more sleep on that score.

A man who has had an eye on Florida weather for upwards of twenty-five years says we are getting back to the old rainy season again. He is evidently a trifle off, for we have got there.

The United States Steel Company will go into the farming business at Conneaut, Ohio, where they have 1,000 acres of land. The land was purchased for a location for the National Tube Company before it had secured plants at McKeesport, and now that it has succeeded the Steel Company will put it into crops.

There is a difference in opinion among instructors regarding the training of children these days. Professor Matthews of the Chicago University, says Mr. Bryan's Commoner, belittles child training and says that morality should be taught in the schools like arithmetic. Morality should be taught everywhere, but the best teaching is by example and the subsidized professors who applaud the criminal methods of the trust magnates are not setting a very good example.

We have received the annual announcement of the Florida Female College at Tallahassee, for 1905-6. This institution of learning, of which mention was made a few days ago, is bound to make rapid advancement under the direction of the distinguished president, Albert A. Murphree, who is recognized as one of the most brilliant educators of the South. Surrounded by a faculty selected for their fitness in the respective branches to which they have been carefully assigned, we feel safe in asserting that the confidence reposed in them will not be in vain. The best results may surely be realized.

CROP MONEY.

Although The Wall Street Journal stated a few days ago that the banks in the West had sufficient money to move the crops, it now states that "the movement of currency from New York to the West to facilitate the harvesting of the crops has begun. It is a significant fact that the first transfer is made ten days earlier than was the case last year. Undoubtedly the West is richer than ever before in its history and with bountiful crops there is a certainty of a most prosperous year. But this fact is no guarantee that the West will not be obliged to call, as it has in the past, upon the East for currency to move its crops.

"So far as the actual shipment of money is concerned, it makes little difference whether the currency sent West represents Western deposits withdrawn from Eastern institutions or Western loans called from Eastern borrowers or the proceeds of loans made by Eastern bankers to Western producers. The money in each case goes from New York to various points in the West and this involves a reduction in cash reserves here.

"All this is very elementary, of course, but it seems necessary to make this explanation every now and then because of the frequent statement that the West is becoming so rich that it can finance the movement of its own crops. In a certain sense it is altogether true. The West has become a powerful factor in the money market of New York by reason of its reserves on deposit here and by reason also of its direct loans to New York brokers upon stock collateral. Unquestionably it needs to borrow much less money from Eastern capitalists to move the crops than in former years. What it needs to do now is simply to withdraw its Eastern deposits and call in its Eastern loans. But this operation involves precisely the same transfer of currency from the East to the West as if the money thus transferred represented loans made instead of credit withdrawn.

"The condition of the cash reserves of the Western banks as revealed by the last reports to the comptroller of the currency does not give promise of any ability on the part of the West to move its crops without the necessity of the usual call upon New York for currency. As the crops are in the aggregate greater in quantity and value than ever before, it would be reasonable to believe that the demands for currency will be correspondingly large."

IN SYMPATHY.

The Lake Butler Star, in paying a fitting tribute to The Gainesville Star, that dropped out of sight without saying adieu, after stating that "they gave the people more than they could get the people to give them," has the following to say in regard to The Sun:

"The Gainesville Sun, one of the best daily papers in the State, thoroughly covers the field in that section, and The Sun now shines upon the graves of at least a dozen newspaper efforts in that city."

The Sun appreciates the compliments of its Lake Butler neighbor, and also the many kind words in the past from the same source. Few people realize the expense of running a daily paper, no matter how small it may be; but it can be readily seen by a glance at the tombstones in the cartoon in The Sun this morning, that the roses come after it is too late.

A glance at the array of teachers from various portions of Florida, in attendance at the reception given the Normal students at the girls' dormitory on Friday evening, by the W. C. T. U., would convince anyone that no State has a more comely and intelligent looking array of ladies and gentlemen. They certainly showed they were ready conversationalists, as all proved themselves able to talk on various topics, and at times it seemed they could all talk at the same time with apparent ease.

STANDING TOGETHER.

Gainesville has given the State a lesson in unity that should not go unheeded by other communities. To secure the location of the University of Florida it was necessary that $40,000 should be offered in cash as a bonus. A few of the leading citizens of the town put up the money and it was delivered into the hands of the Board of Control. These citizens had no security other than confidence in the integrity and fairness of the citizens of the town, whom they depended upon to vote a bond issue and thus reimburse them. The bond election came last week, and out of 266 votes polled only three were against the bond issue. That's what we call standing together, and the spirit exemplified by this vote will keep Gainesville on the up-grade. A community so honest and fair and united in matters of public interest is bound to grow and prosper. It is a showing that even the three fellows who voted against the bond issue should feel proud of.—Starke Telegraph.

TO OUR SHERIFF.

Sheriff Fennell of Alachua county is not one of those officials who waits for grand juries to investigate the blind tiger business, but he acts promptly on his own sense of official responsibility by invading the jungles and corraling them in their lairs whenever he suspicions there is one of these animals in his domain. Friday he swooped down on several of these dens of iniquity in Newberry, information of an indirect nature being given him about some of them, and his labors were rewarded by capturing a large supply of "tamarac" juice and the arrest of the gentry dealing in the outlawed fluid. All honor to this energetic Alachua sheriff!—Jasper News.

It would hardly seem possible that a man possessed of the ability of Rev. Frank W. Gunsalus of Chicago would have said: "The one man in the world who matches Jesus Christ in seriousness of purpose, in purity of life, is the President of the United States, Theodore Roosevelt." The reverend gentleman is too young to be charged with being in his dotage.

Other State papers claim that the Atlantic Coast Line will pass through Monticello from Perry. Let us hope we can get on some kind of a main line some day! This branch-road business has put us strictly in the wiregrass.—Monticello News.

EIGHT NEW COUNTIES MADE.

Only Signature of Governor Now Is Needed—Other Legislative News.

Atlanta, August 19.—Only the signature of Governor Joseph M. Terrell is needed, and the eight new counties will be in existence.

The senate finishe up its work on the new counties Thursday by adopting in full the report submitted by Chairman Crawford Wheatley, of the new county committee.

At Thursday's session of th esenate, Turner, Grady, Toombs and Stephens were created. This, following the action of the senate Wednesday afternoon in creating the counties of Tift, Crisp, Jenkins and Jeff Davis, completed the work of carving out new units in the state of Georgia.

Governor Terrell has already signed the bills creating the counties of Crisp and Jenkins, and it is understood his signature will be immediately placed upon the other six bills.

In the House.

When the house on Thursday voted on the senate amendment cutting the liquor tax from $500 to $300, there was just one less vote for the $500 tax than when that amount was originally inserted in the bill.

This would seem to indicate that the house is determined not to back down from its position on this subject, though there are indications that the senate proposes to be equally firm.

The matter has now gone to a conference committee along with other senate amendments, to the general tax act, to which the house refused to assent.

The disputerd amendments to the general appropriations bill have likewise been sent to a conference committee, and the committees on both these subjects were in close deliberation Thursday afternon and night.

The house Thursday afternoon by a vote of 116 to 24, passed the bill by Senator Copeland, which has already passed the senate, amending section 2347 of the Code so as to confer the same right of eminent domain upon telephone companies as is now enjoyed by telegraph companies, with the addition that both telephone and telegraph companies are to be given the right to use the public highways of the state under supervision of the county authorities.

The bill was not passed, however, until the house had adopted by a vote of 87 to 69 an amendment by Mr. Perry, of Hall, providing that such telephone companies as take advantage of the privileges granted under this act, shall be subject to the supervision of the state railroad commission, just as telegraph and railroad companies now are.

Nothing on the Market Equal to Chamberlain's Colic, Cholera and Diarrhoea Remedy.

This fact is well known to druggists everywhere, and nine out of ten will give their customers this preparation when the best is asked for. Mr. Obe Witmer, a prominent druggist of Joplin, Mo., in a circular to his customers, says: "There is nothing on the market in the way of patent medicine which equals Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints. We sell and recommend this preparation." For sale by all druggists.

Investigate Removal of Officers.

Philadelphia, August 19.—The select branch of city councils passed a resolution calling for the appointment of a committee of seven with full power to investigate the removal of all officers and employes of the city during the last three months. The resolution gives the committee full power to summon witnesses and employ counsed such other assistance as may be deemed necessary. The resolution was adopted by Milton C. Work, who explained that two directors of departments, several bureau chiefs and several hundred were employes and have been dismissed from the service of the city without the mayor giving any reason to councils as required by the laws governing the city.

Mob Still After Negro.

Thomasville, Ga., August 19—A party of twenty returned from Ways Still, 13 miles from town, this morning at 7 o'clock bringing a suspected negro supposed to have assaulted Mrs. Charles Outze yesterday. They took the negro to the Outze farm for identification. He was not identified as the right man and they released him.

How to Avoid Appendicitis.

Most victims of appendicitis are those who are habitually constipated. Orino Laxative Fruit Syrup cures chronic constipation by stimulating the liver and bowels. Orino Laxative Fruit Syrup does not nauseate or grip and is mild and pleasant to take. Refuse substitutes. J. W. McCollom & Co.

CHICAGO CONTRACTOR MISSING

It Is Believed that He Has Been Murdered by Sluggers.

Chicago, August 19.—R. H. Davidson, a building contractor, is missing from Chicago, and his friends and relatives think he has met death at the hands of a union labor slugging gang.

Davidson was in the employ of F. W. Adams, as superintendent of the construction of a new building at Rockwell and Thirty-seventh streets. The contstruction of the building has been marked by the continuous labor troubles.

After he had discharged a number of brick layers, Davidson received a call from a man who is supposed to have been a union business agent. That was several days ago. The interview between the contractor and the stranger ended in a violent quarrel, in which Davidson knocked his caller down on the floor of the new building. Two days later Davidson left his work as usual at 5 o'clock in the afternoon but he did not reach his residence. The next day an unknown person called Frank W. Adams on the telephone and said:

"You will find your man Davidson in the river."

Since that telephonic communication, no word has been heard from Davidson or about him.

A Worm Killer.

J. A. J. Montgomery, Puxico, Wayne county, Mo., writes: "I have little twin girls, who have been bothered with worms all their lives. I tried everything to relieve them, which failed until I used White's Cream Vermifuge; the first two doses brought four worms from one of them, the next two doses, twelve, one of them measuring twelve inches; the other child was only relieved of four worms. It is an excellent medicine." White's Cream Vermifuge is good for children. It not only destroys worms—it helps the child to perfect growth, wards off sickness. Sold by W. M. Johnson.

President Receives Visitors.

Oyster Bay, L. I., August 19.—Postmaster General and Mrs. George B. Cortelyou were guests a few hours today of the president and Mrs. Roosevelt. The postmaster general is on his vacation and he and Mrs. Cortelyou have been passing a few days at their home in Hempstead, Long Island. Mrs. Cortelyou does not expect to return to Washington until about the middle of September. Edwin H. Conger, ambassador to Mexico, was a guest of the president and Mrs. Roosevelt at a luncheon. During the day two or three other visitors were received by the president, among them being Dr. E. J. James, president of the Uuniversity of Illinois.

Given Up to Die.

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run-down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good, and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." J. W. McCollum & Co.

Printers Favor Eight Hours.

Toronto, August 19.—The convention of the International Typographical union has decided to meet in Colorado Springs next year. The eight-hour committee presented its report, which indorses the eight-hour campaign now being waged, and recommends a strike on January 1, 1906, against employers who do not accept the new hours laid down by the union.

Noted French Chemist Dead.

New York, August 19.—Dr. Lewis H. Laundy, professor of chemistry at Columbia university for 34 years, died yesterday from apoplexy. He was a native of France, and in his youth attained prominence in the politics of the French republic. At one time he represented his government as minister at Madrid.

Cured Hay Fever and Summer Cold.

A. J. Nushbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to only aggravate my case. Fortunately I insisted upon having Foley's Honey and Tar and it cured me. My wife has since used Foley's Honey and Tar with the same success." J. W. McCollum & Co.

Mississippi to Borrow Money.

Jackson, Miss., August 19.—Before the annual distribution of the state pension fund, amounting to $250,000, is made, it will be necessary for Governor Vardaman to borrow an additional $100,000. This will exhause the $300,000 loan he is authorized to float under an act passed at the last legislative session providing for a probable deficit during the current year.

Infernal Machine Sent Broker.

New York, August 19.—A supposed explosive machine received by Jacob H. Schieff, of the firm of Kuhn, Loeb & Co., bankers, at the office of that company, was today turned over to the police for examination by Mr. Schieff. The box contained matches, cotton and another substance supposed to be an explosive.

Herbine

Renders the bile more fluid and thus helps the blood to flow; it affords prompt relief from biliousness, indigestion, sick and nervous headaches, and over-indulgence in food and drink. G. L. Caldwell, agent M. K. & T. R. R., Checotah, Ind. Ter., writes, April 18, 1903: "I was sick for over two years with enlargement of the liver and spleen. The doctors did me no good, and I had given up all hope of being cured, when my druggist advised me to use Herbine. It has made me sound and well." 50c. Sold by W. M. Johnson.

Mrs. Atkinson Gets Appointment.

Newnan, Ga., August 19.—To the gratification of her many friends Mrs. W. Y. Atkinson has been appointed postmaster at this place. She received a telegram from Senator Clay, announcing the appointment and congratulating her. It was due to the exertions of her many friends and those of her late husband that the widow of the former governor got the position. Mrs. Atkinson takes charge of the office Jan. 1, 1906, and there is no doubt but that she will make an excellent postmaster.

GENERAL NEWS.

Tramps' Dastardly Crime.

Augusta, Me., August 19.—Mattie Hackett, the 18 year old daughter of Levi J. Hackett, a farmer of Kuntsbill, a village 15 miles northeast of this city, was murdered last night by men supposed to be tramps. Four men applied at the house for a meal and while it was being prepared by the daughter, Hackett accompanied by one of the strangers went to the stable nearby to do some work. While there a scream was heard and running to the road, Hackett found his daughter unconscious with a small cord tightly drawn about her neck. Blood was pouring from a deep gash in the head. All the tramps escaped except the one who had gone to the barn.

Liabilities $292,677; Assets $50.

Boston, August 19.—Liabilities of $292,677 and assets of $50 were scheduled in a petition in bankruptcy filed here by George B. Appleton, of Cambridge. Appleton was a clerk in the office of Arthur E. Appleyard, the street railway promoter, who is now contesting extradition to the state of New York, where he is wanted on a charge of grand larceny from a Buffalo bank. Appleton, it appears, also figured as treasurer of various Appleyard roads in Ohio, and he held stocks in eight railways, including the Ohio Traction company, and the Dayton, Lebanon and Cincinnati Railway company.

Killed Answering Mother's Appeal.

Bonneville, Ore., August 19.—While answering his aged mother's call to come home J. L. Anderson, of No. 444 North Prospect street, Kansas City, Mo., was murdered near here this morning. Investigation showed that Anderson had met death by repeated blows on the head by a heavy iron bar, but failed to elicit any motive for the crime nor any clew to the murderer. A letter in his pocket contained an appeal from his mother at Kansas City to come home. Anderson was about 22 years of age, and though bearing signs of tramping, he had been neatly dressed.

Can't Fix Cause of Wreck.

Cleveland, O., August 19.—H. S. Stone, general superintendent of the Lake Shore road, who has kept in close touch with all the investigations in connection with the wreck of the Twentieth Centruy limited at Mentor, O., made this statement today in reference to the verdict, rendered by Coroner Stegelstein, of this county, concerning the accident: "No testimony of evidence has been discovered or produced by either of the coroners who have had the matter under investigation, which shows or tends to show, who the person was that was guilty of opening the switch."

Female Poacher Killed.

New York, August 19.—Baron Von Stumm, a brother of the German ambassador at Washington, shot a female poacher at midnight in mistake for a deer, cables the Herald's Berlin correspondent. The shooting occurred on the estate of Baron Von Der Schulenburg's premises at Neu Cattersleben. The woman has since died. Baron Sternburg has voluntarily surrendered to the police and has been allowed bail.

Lumber Dealers in Session.

Toronto, Ontario, August 19.—The National Wholesale Lumber Dealers' association, an American organization, is in session here with twenty-seven lumber men's organizations from the United States, passed a resolution today to complain to the interstate commerce commission against the roads east of the Mississippi river which have compelled lumbermen to equip cars to receive lumber shipments.

Rheumatism.

Where pain or irritation exist on any part of the body, the application of Ballard's Snow Liniment gives prompt relief. W. Sullivan, proprietor Sullivan House, El Reno, O. T., writes, "I take pleasure in recommending Ballard's Snow Liniment to those who are afflicted with rheumatism. It is the only remedy I have ever found that gives immediate relief." 25c, 50c and $1. TWELVE KILLED IN WRECK.

River Is Being Dragged for Missing Ones—Large Number Injured.

Norfolk, August 19.—So far only 12 known dead have been taken from the wreck of the Atlantic Coast Line railway's Kinston and Greenville, N. C., excursion train, though there are some eighty of the negro excursionists yet missing, and the probabilities are that the bodies of many of these will be found in the bottom of the river after all dragging has been completed.

The two submerged cars have been raised, but as they were raised the ends fell out of the cars and what dead were therein went to the bottom of the river with debris from the interior of the coaches.

The river is now being dragged, and it is expected that a number of bodies will be taken from the water before night. The latest victims to be found are the unknown negro man and woman, it having been impossible up to this time to identify either. These bodies were taken from the water this morning.

The only white persons known to be dead up to this time are W. E. Jolly, the promoter of the excursion, and his young nephew, Edward Forbes.

There are some 56 or 60 of the 169 excursionists who have come to Norfolk either slightly injured or bruised. There are 23 injured at the hospitals, with 12 known dead which leaves between 70 and 80 of the excursionists yet missing, and it is believed that a large majority of those are at the bottom of the river.

A revised list of the injured is being made up.

A Warning to Mothers.

Too much care cannot be used with small children during the hot weather of the summer months to guard against bowel troubles. As a rule it is only necessary to give the child a dose of castor oil to correct any disorder of the bowels. Do not use any substitute, but give the old-fashioned castor oil, and see that it is fresh, as rancid oil nauseates and has a tendency to gripe. If this does not check the bowels give Chamberlain's Colic, Cholera and Diarrhoea Remedy and then a dose of castor oil, and the disease may be checked in its incipiency and all danger avoided. The castor oil and this remedy should be procured at once and kept ready for instant use as soon as the first indication of any bowel trouble appears. This is the most successful treatment known and may be relied upon with implicit confidence even in cases of cholera infantum. For sale by all druggists.

Many Cities Want Convention.

Portland, Ore., August 19.—Denver, New Orleans, Kansas City and Salt Lake are the candidates in the fight for the next session of the trans-Mississippi congress. This will be developed at the first meeting of the committee on permanent organization. Ex-Governor L. B. Prince, of New Mexico, was elected chairman of the committee and A. F. Francis, secretary. At the meeting the names of Hon John W. Noble, of St. Louis, ex-secretary of the interior, and Colonel H. D. Lovell, of San Francisco, were suggested for the presidency of the forthcoming term.

They Appeal to Our Sympathies.

The bilious and dyspeptic are constant sufferers and appeal to our sympathies. There is not one of them, however, who may not be brought back to health and happiness by the use of Chamberlain's Stomach and Liver Tablets. These tablets invigorate the stomach and liver and strengthen the digestion. They also regulate the bowels. For sale by all druggists.

Strikers Get Increase in Wages.

Helena, Mont., August 19.—Fourth Vice President Dermody of the Order of Railway Telegraphers received telegraphic orders last night from President Perham directing that Dermody take a vote of his division as to whether or not the striking operators should return to work and end the strike. Mr. Dermody will take the vote of out of town strikers by wire and will report the result to President Perham at St. Paul. Mr. Dermody stated that he felt confident that the men would vote to call off the strike as they had assurances of receiving an increase in wages.

Cures Sciatica.

Rev. W. L. Riley, L. L. D., Cuba, New York, writes: "After fifteen days of excruciating pain from sciatic rheumatism, under various treatments, I was induced to try Ballard's Snow Liniment; the first application giving my first relief and the second entire relief. I can give it unqualified recommendation." 25c, 50c, $1.00. Sold by W. M. Johnson.
